

ACCURATE AIR, INC.  
BOILER INSPECTION

Customer: \_\_\_\_\_  
 Model #: \_\_\_\_\_ Serial #: \_\_\_\_\_ Unit #: \_\_\_\_\_  
 Location: \_\_\_\_\_ Manufacturer: \_\_\_\_\_  
 Horsepower: \_\_\_\_\_ Type: \_\_\_\_\_ Type of Fuel: \_\_\_\_\_

Objectives:

Electrical Connections _____	Low Water Cut Out _____
Safety Devices _____	Feed Pump Control _____
Starter, Relays Operation _____	Feed Pump _____
Thermostat Operation _____	Boiler Water Condition _____
High Limit Control _____	Pressure Reducing Calve _____
Circulating Pumps _____	Pressure Relif Valve _____
Oil Filter _____	Fireside Condition _____

Gas Burner Model # \_\_\_\_\_ Oil Burner Model # \_\_\_\_\_

Pilot & Ignition System _____	Ignition System _____
Burner Flame/ Adjust Air _____	Burner Flame/ Adjust Air _____
Draft Inducer/ Regulator _____	Draft Inducer/ Regulator _____
Gas Pressure Main/ Manifold _____	Oil Pump Pressure Test _____
Gas Valve Condition/ Oper. _____	Safety Device Operation _____

<u>Efficiency Tests:</u>	<u>Low Fire</u>		<u>Medium Fire</u>		<u>High Fire</u>	
	<u>Existing</u>	<u>Corrected</u>	<u>Existing</u>	<u>Corrected</u>	<u>Existing</u>	<u>Corrected</u>
Over Fired	_____	_____	_____	_____	_____	_____
Draft IN	_____	_____	_____	_____	_____	_____
Stack Draft IN	_____	_____	_____	_____	_____	_____
Stack Temp F	_____	_____	_____	_____	_____	_____
Oxygen %	_____	_____	_____	_____	_____	_____
Flue Gas CO %	_____	_____	_____	_____	_____	_____
Efficiency %	_____	_____	_____	_____	_____	_____
Smoke Test	_____	_____	_____	_____	_____	_____
